The Scottsville Times

ISSUE NO.3

THE OFFICIAL NEWSLETTER OF SCOTTSVILLE SCHOOL

News From Our School!

As the term progresses, exams are drawing closer and we encourage our learners to stay focused and continue preparing well. With winter settling in and the colder weather upon us, we kindly remind parents that it is now strictly winter uniform. We hope all our families enjoyed a peaceful and blessed Ascension Day with their loved ones.

Our Grade 1 learners had an exciting and educational excursion to the KwaZulu-Natal Sharks Board! They explored the fascinating world of marine life, discovered interesting facts about sharks and learned about ocean safety and conservation.

Our Grade 5 learners turned up the heat during their Natural Sciences investigation. Using different metals like copper wires, coins, nails and forks. Learners observed how they react when heated over a flame.

The Grade 6 & 7 learners proudly participated in Career Day, dressing up as the professionals they aspire to become one day. It was a great experience filled with creativity, confidence and big dreams for the future. Well done to all our learners!
