ISSUE NO.4

THE OFFICIAL NEWSLETTER OF SCOTTSVILLE SCHOOL

## News From Our School!

As we move through week 7, the excitement around school activities continues while exams draw closer. Our learners are currently balancing the demands of sports, academics and preparation of the upcoming examination period. We encourage all learners to remain focused, manage their time wisely and continue preparing steadily.

Our Grade 7 learners recently visited the KwaZulu-Natal Museum for an engaging educational lesson focused on Matter and Materials. Learners explored different types of materials and their properties. They enjoyed a hands-on learning experience

that brought Science to life beyond the walls of the classroom. The trip sparked curiosity, encouraged critical thinking and reminded learners that Science is all around us.

This week was filled with exciting sporting action as our hockey, netball and rugby teams proudly represented the school. Congratulations to all our teams for the wonderful enthusiasm shown on the field.
